LIKED LEAST:

No Dr. Pepper to drink, need better snacks.

Not enough time to get more information

My first conference so there really wasn't anything I didn't like.

Nothing.

Meals – No desserts – location was too isolated and hotel staff was unfriendly and rude. The rooms need remodeling.

Lack of food.

Too few vendors.

No desserts at breaks.

Hotel

Lunch.

Hotel front desk staff.

Distance.

The hotel service, the hotel food and the hotel location, the condition of the hotel and the staff was very rude.

Noise from children in the FUNDome.

The food, not trying to be picky but I think we need some hot sauce.

Not more classes

Nothing

Not being able to take hands on electrical as well.

Meals, no desserts, few vendors and hotel not close to anything.

The attitude of some hotel staff, food choices, no desserts and room locations.

Wish more vendors had participated.

Where are all the vendors? The jewelry, Avon and Tupperware sales people that were set up – What's up with that?
